Squat/Calf Block

### GS348Q

#### Series 7 Linear Bearing Smith Machine

Set to a 7-degree reversed pitch, the Series 7 allows natural upper and lower body movements for maximum muscle interaction; a feature not found in the traditional Smith Machine. User safety is provided by 20 cross-member lock-out points that are accessible with a simple 15-degree rotation of the bar, eliminating the need for a spotter. For those exercises that demand freeweight movement, the 14-position gun rack with 17" extra heavy duty safeties is also set to a 7-degree reversed pitch providing convenient lift-off points and predictable racking.

The Series 7 works great with any bench for intense chest and shoulder routines. Add the optional Selectorized Lat Attachment for high and low cable exercises, lat pull-downs, triceps press-downs, cable crossovers and much more!

Assembled Dimensions: 83" x 66"L x 64"W (84" at bar)

#### Special Features

- Lifetime warranty
- Precise 7° angle Smith Machine combined with 7° angle freeweight barbell workout center designed for natural upper and lower body exercise movements
