

WOODWAY®

ABOUT WOODWAY

WOODWAY is a global organization built on the efforts and commitment of dedicated professionals.

Our purpose is to manufacture products and provide service that exceeds our customers' expectations through continuous improvements in quality and design.

Our focus is on building lasting customer relationships that will endure For The Long Run®.

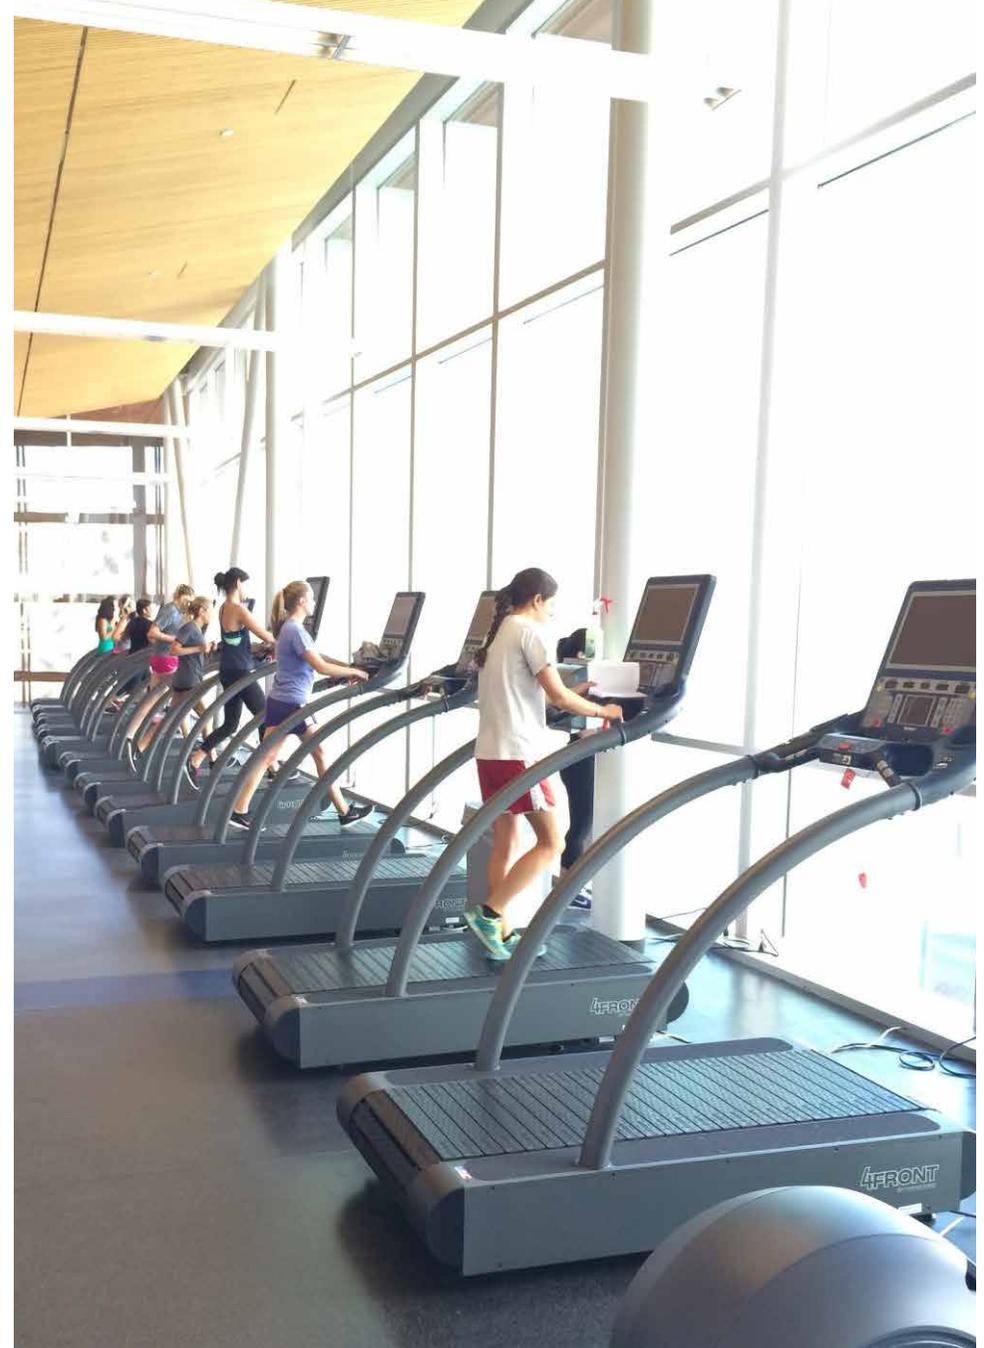

THE WOODWAY NAME

In 1975, WOODWAY GMBH was founded in Weil am Rhein, Germany. The name "WOODWAY" is derived from the German "Waldweg" (Wald = Wood and Weg = Way) – the feel of running on a soft pine needle covered path in the forest.

OUT OF THIS WORLD

WOODWAY was selected to produce the physical treadmill base used in the COLBERT (T2), which is a NASA project implemented to place a treadmill system on the International Space Station. WOODWAY's patented treadmill design meets the unique requirements of the space station as well as the health needs of the astronauts.

HEALING ONE STEP AT A TIME

WOODWAY's highly specialized line of medical treadmills have been the preferred choice of medical specialists for decades, specifically engineered for physical therapy, cardiology rehabilitation, bariatric, and any other rehabilitation application.

THE ORIGINAL NON-MOTORIZED TREADMILL

Since 2009, the CURVE treadmill has been a staple in performance facilities world-wide for training athletes of various skill levels. From walkers to elite athletes, the CURVE allows users to run at any pace while burning up to 30% more calories using zero electricity.

THE WOODWAY DIFFERENCE

THERE IS WOODWAY AND THEN THERE ARE CONVENTIONAL TREADMILLS.

WOODWAY treadmills feature revolutionary technology that provides users with an experience unlike any other. WOODWAY engineers set out to develop a safe and comfortable running surface for users that reduce shock on the body but also reduces the friction and wear associated with the conventional conveyor belt style. A system so durable it runs reliably year after year, saving more on energy costs than any other treadmill and is so comfortable you can even run on it barefoot.

SHOCK REDUCING SLAT BELT RUNNING SURFACE

Comprised of numerous individual shock-absorbing slats that have been scientifically proven to reduce harmful shock to joints, muscles, and connective tissue, the running surface can absorb more than 150,000 miles of usage without a single belt change.

NO-SLIP DRIVE PULLEYS & BELT

Designed to provide accurate speed, the toothed belt and drive, together with numerous guide rollers, assure the belt will not stretch or slip. No need to adjust or tension, ensuring accurate speed readouts with every workout.

LOW FRICTION BALL BEARING TRANSPORTATION SYSTEM

Every treadmill features two bearing rails that allows the running surface to glide seamlessly along the frame, nearly eliminating friction and the resulting wear which leads to a longer life and significant electrical savings.

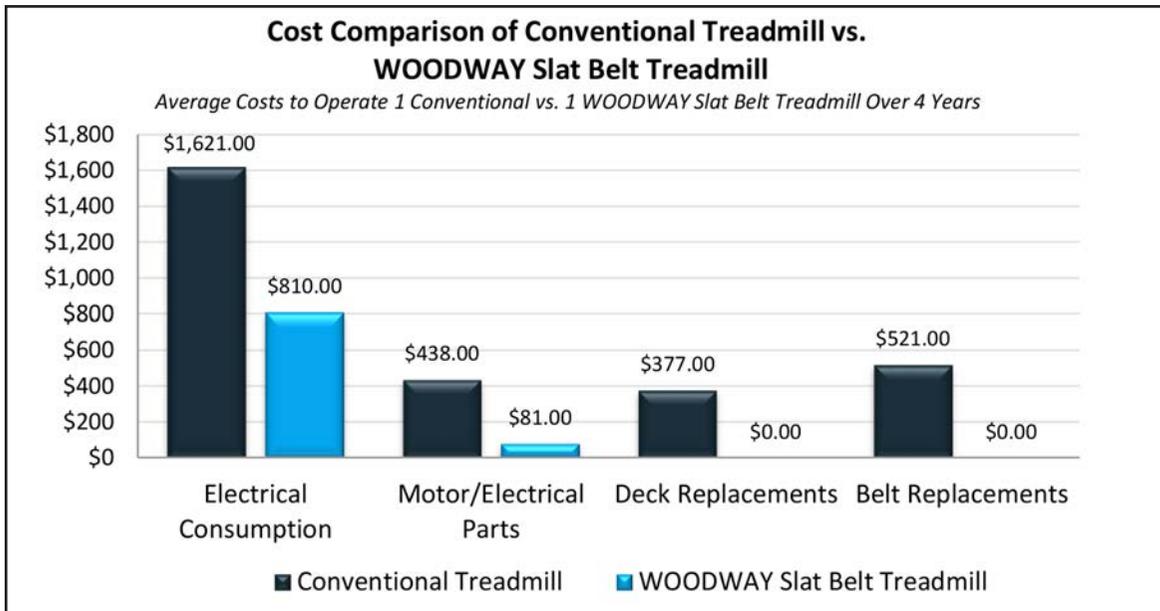

EXPERIENCE THE BEST

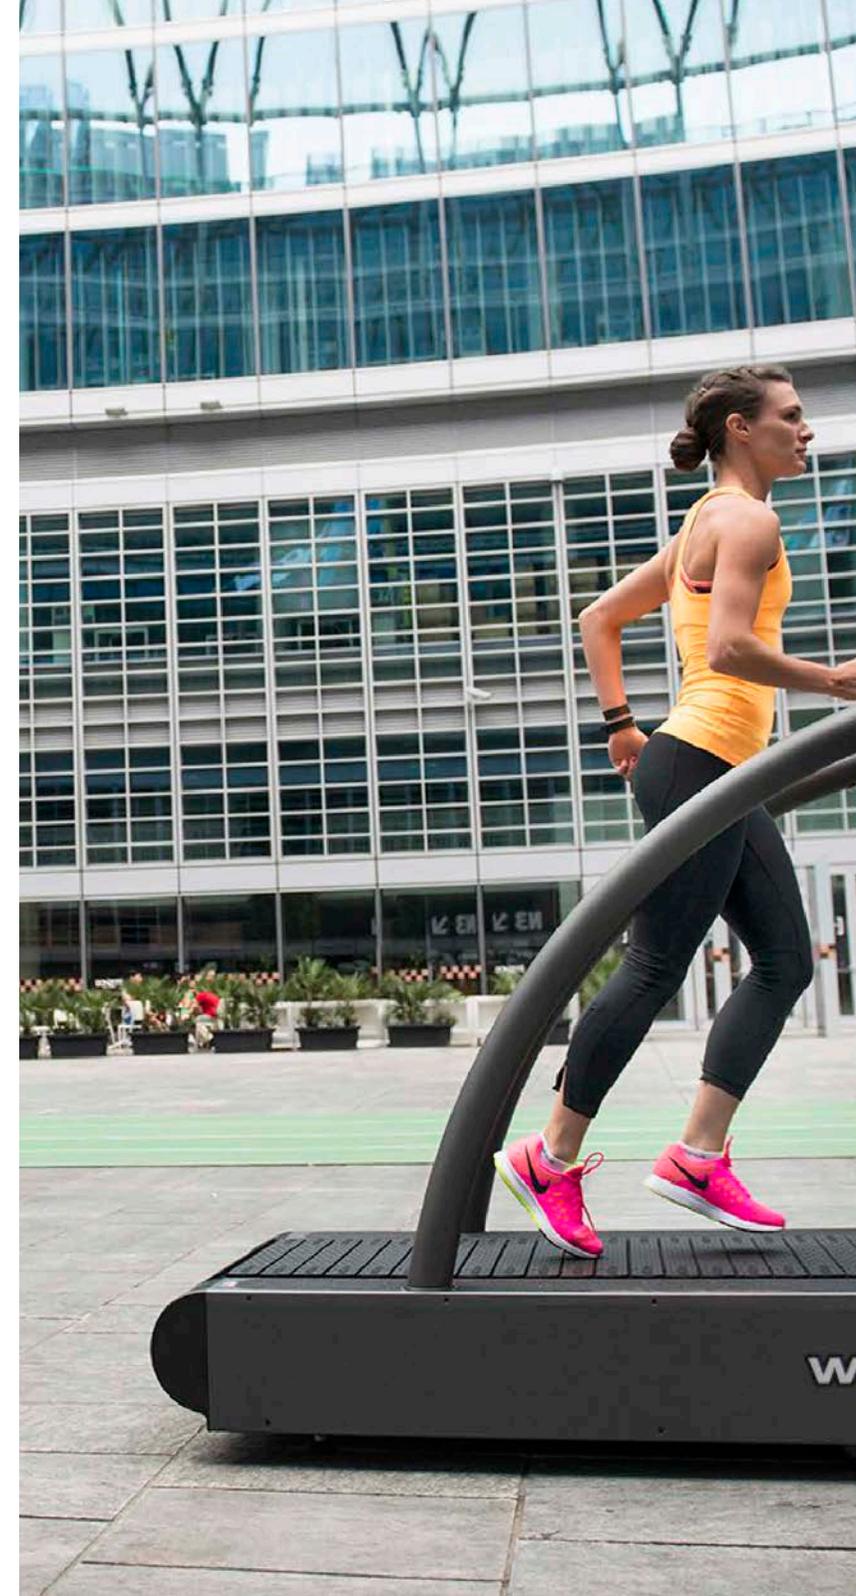

Many of the features that make WOODWAY treadmills more comfortable also make them more durable.

Unlike most conventional treadmills you see with a conveyor belt style running surface made from standard thin PVC, nylon, and cotton, WOODWAY treadmills feature a unique running surface of vulcanized rubber. This allows our running surface to last for more than 150,000 miles, roughly ten times longer than the belt of an average treadmill.

Each treadmill is designed to create significantly less friction and wear, resulting in a belt that will never need tracking adjustments and you will never have to wax or flip a deck because there isn't one. These efficiencies can translate into \$300 - \$800 in electrical costs, maintenance, and/or replacement parts for each year, per treadmill, in a high use environment.

* Study conducted by Major University Recreational Department

FOR THE LONG RUN

Fully equipped with a galvanized steel frame capable of supporting up to 800 lbs, WOODWAY treadmills are built to last.

Only WOODWAY offers a true zero start and doesn't necessitate a heavy-duty motor to counter the friction problem created by the inefficient design of conventional treadmills.

In addition to less wear and tear on components, WOODWAY's unique design is also more efficient, requiring about 50% less electricity to operate. The combination of maintenance and electrical savings result in a lower Total Cost of Ownership with less downtime in comparison with conventional treadmills. WOODWAY's are the ideal cardio solution For The Long Run®.

Typical Cost Comparison Of
WOODWAY vs. Conventional Treadmill
In A Commercial Facility Over 5 Year Period

	WOODWAY Slat Belt Treadmill	Conventional Treadmill
Electricity Costs <i>*195 lb. Male - 5 mph -up to 12 hrs. Per day -365 days yr.</i> <i>** (U.S. Bureau of Labor Statistics Commercial Rates 11.3¢ per kWh Atlanta area March 2012)</i>	\$511.05 <i>*(\$102.21 yr. * 5 yr.)</i> <i>**Based on independent WOODWAY research</i>	\$ 1,058.45 <i>*(\$211.69 yr. * 5 yr.)</i> <i>**Based on independent WOODWAY research</i>
Belt/Deck Replacements <i>*Approx. Average costs associated with purchase price of parts</i>	\$ 0	Belt \$240.00 <i>(2 * \$120.00)</i> Deck \$240.00 <i>(1 * \$240.00)</i>
Maintenance/Adjustments <i>*(Factors belt and deck changes, tensioning, adjustments)</i>	\$ 0	\$ 1,200.00 <i>(\$ 20.00 per month * 60)</i>
Total Cost to Operate & Maintain for 5 Years	\$ 511.05 <i>*(60 months)</i>	\$ 2,738.45 <i>*(60 months)</i>
Less Buy-Back - End Value <i>*WOODWAY USA guarantees 20% buy-back up to 5 years</i>	-\$2,000.00 <i>*(20% of purchase price estimated at \$ 10,000.00)</i>	-\$ 300.00 <i>*(Average conventional tread value)</i>

PROSMART TOUCHSCREEN

IT'S NO LONGER JUST ABOUT A WORKOUT,
IT'S ABOUT THE EXPERIENCE

WOODWAY's new ProSmart Touchscreen display is changing the face of fitness for all. Combining expertise and ingenuity the ProSmart is a revolutionary training console designed to enhance user experience and create a one-of-a-kind workout catered to an individual's fitness goals.

By designing, building, and uploading customized, goal-oriented workouts for every individual user, the ProSmart provides a new means of training with its smart programs. It makes group training easy too, with remote function control and 3rd party asset management. Facilities can even tailor the display with their brand colors and logos to fit their club or team.

The ProSmart will keep users entertained even when training alone, with the ability to stream realistic outdoor and video game run simulations will have users forgetting they are on a treadmill altogether.

4FRONT

The 4FRONT treadmill is the next generation in a long line of products that feature the exceptional comfort and versatility of WOODWAY's unique Slat Belt running surface. The 4FRONT was designed to mimic the feel of running outdoors and to provide the user with a dynamic and low impact workout every time. Distance runners, recreational runners, and walkers alike can appreciate the quality and innovation that sets the Woodway 4Front apart from any other treadmill.

SLAT BELT TECHNOLOGY - Scientifically proven to reduce harmful shock to joints, muscles, and connective tissues allowing for a smoother and more comfortable run.

PROSMART TOUCHSCREEN - Train smarter, customize your workout, and reach your goals with the revolutionary ProSmart training console.

DYNAMIC MODE - Disengage the motor and switch up your routine for an intense and powerful workout.

RUNNERS CHOICE - The 4Front can be seen in many of the world's top fitness facilities and classes for its commitment to excellence and dependability.

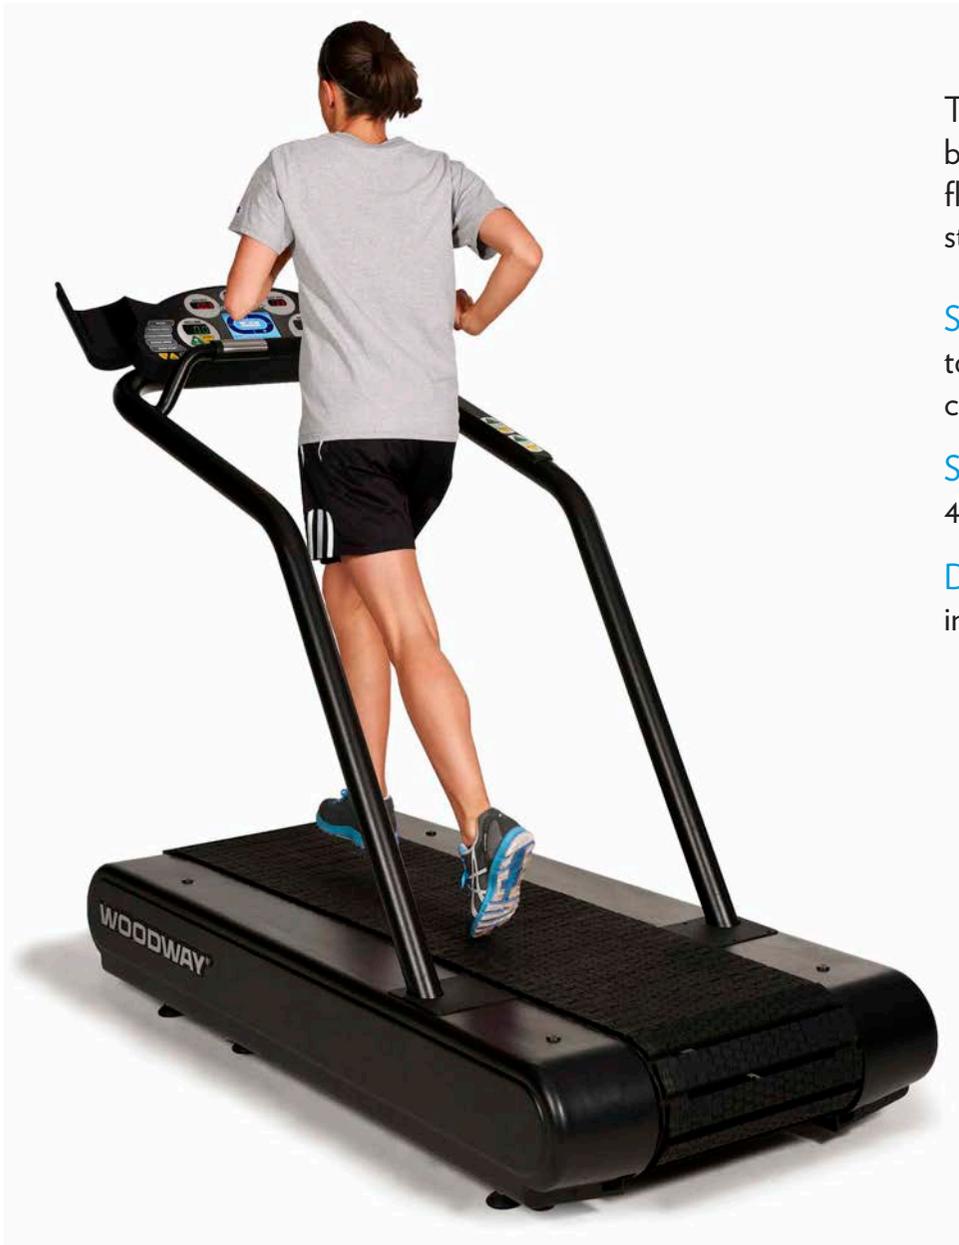

SPEED: 12.5 MPH INCLINE: 15%

WOODWAY

WOODWAY

MERCURY

SPEED: 11 MPH INCLINE: 15%

The MERCURY treadmill is the perfect space saver that still gives you every benefit of a full-size 4FRONT. **Narrower in width**, the MERCURY will save you floor space while still delivering supreme comfort and natural movement without stress on the joints.

SLAT BELT TECHNOLOGY - Scientifically proven to reduce harmful shock to joints, muscles, and connective tissues allowing for a smoother and more comfortable run.

SPACE SAVER - The Mercury is a smaller version of our popular model, the 4Front, allowing for more space or more treadmills, whichever you prefer!

DYNAMIC MODE - Disengage the motor and switch up your routine for an intense and powerful workout.

“

As one of the largest institutions in the country, with thousands of users each day, the Woodway Treadmills have exceeded our expectation in terms of performance, maintenance, and longevity. The soft and smooth feel of the Mercury treadmill is appreciated by our long-distance runners, recreational runners, and walkers alike. Solid construction means maintenance is very minimal to nonexistent allowing us to provide our students, faculty, and staff what we would consider the best treadmill in the industry.

”

Lisa Lemler
Assistant Department Director
University Of Minnesota

PATH

SPEED: 11 MPH INCLINE: 15%

The PATH treadmill is a lot like the 4FRONT in that it has many of the same qualities and luxuries you've come to expect from a WOODWAY, however, **shorter in length**, the PATH will save you floor space while still delivering the same big results.

SLAT BELT TECHNOLOGY - Scientifically proven to reduce harmful shock to joints, muscles, and connective tissues allowing for a smoother and more comfortable run.

SPACE SAVER - The Path is a shorter version of our popular model, the 4Front, allowing for more space or more treadmills, making it a good choice for universities, studios, and residential settings.

DYNAMIC MODE - Disengage the motor and switch up your routine for an intense and powerful workout.

PRO

Don't let a basic treadmill limit your training. The PRO treadmill provides ample space for any athlete of any size, along with a specialized handrail configuration for quick and easy on-off intervals. Train your body's endurance and agility with the PRO's superior speeds and elevation levels.

SLAT BELT TECHNOLOGY - Scientifically proven to reduce harmful shock to joints, muscles, and connective tissues allowing for a smoother and more comfortable run.

HIGHER, FASTER - The Pro treadmill comes standard a standard elevation of 25% and speeds of 15 mph with even higher speed options available if desired.

WIDER RUNNING SURFACE - Measure performance and provide feedback during training with an extra wide running surface allowing for improved training and mobility.

CONFIGURED HANDRAILS - For convenient on-off access during training.

SPEED: 15 MPH INCLINE: 25%

PRO XL

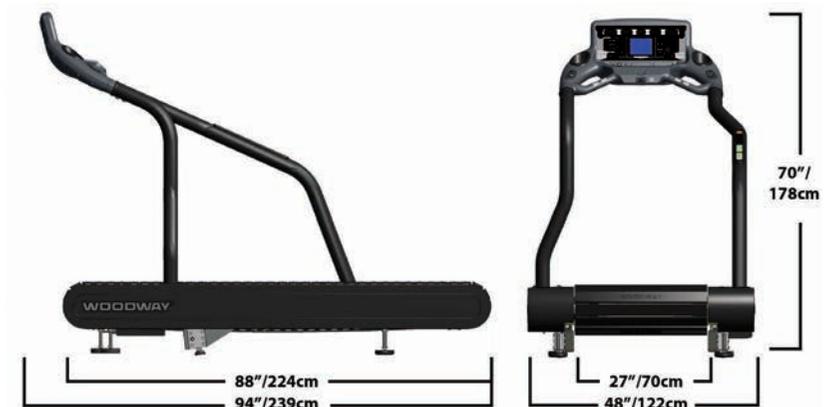

The PRO XL treadmill is an absolute must for any human performance training centre. With accurate speeds for testing, reliability, ample running space, and peak elevation levels, the PRO XL has the ability to handle some of the world's most powerful and elite athletes. Engineered with results in mind, this treadmill can handle any challenge thrown its way.

SLAT BELT TECHNOLOGY - Scientifically proven to reduce harmful shock to joints, muscles, and connective tissues allowing for a smoother and more comfortable run.

HIGHER, FASTER - The Pro XL treadmill comes standard a standard elevation of 25% and speeds of 15 mph with even higher speed options available if desired.

WIDER AND LONGER RUNNING SURFACE - Measure performance and provide feedback during training with an extra-large running surface allowing for improved training and mobility.

CONFIGURED HANDRAILS - For convenient on-off access during training.

SPEED: 15 MPH INCLINE: 25%

“Having been involved in both fitness and athletics over the past 20 years, I have seen many different treadmills and heard many different claims, but WOODWAY actually “walks the talk” when it comes to providing a top-of-the line product.

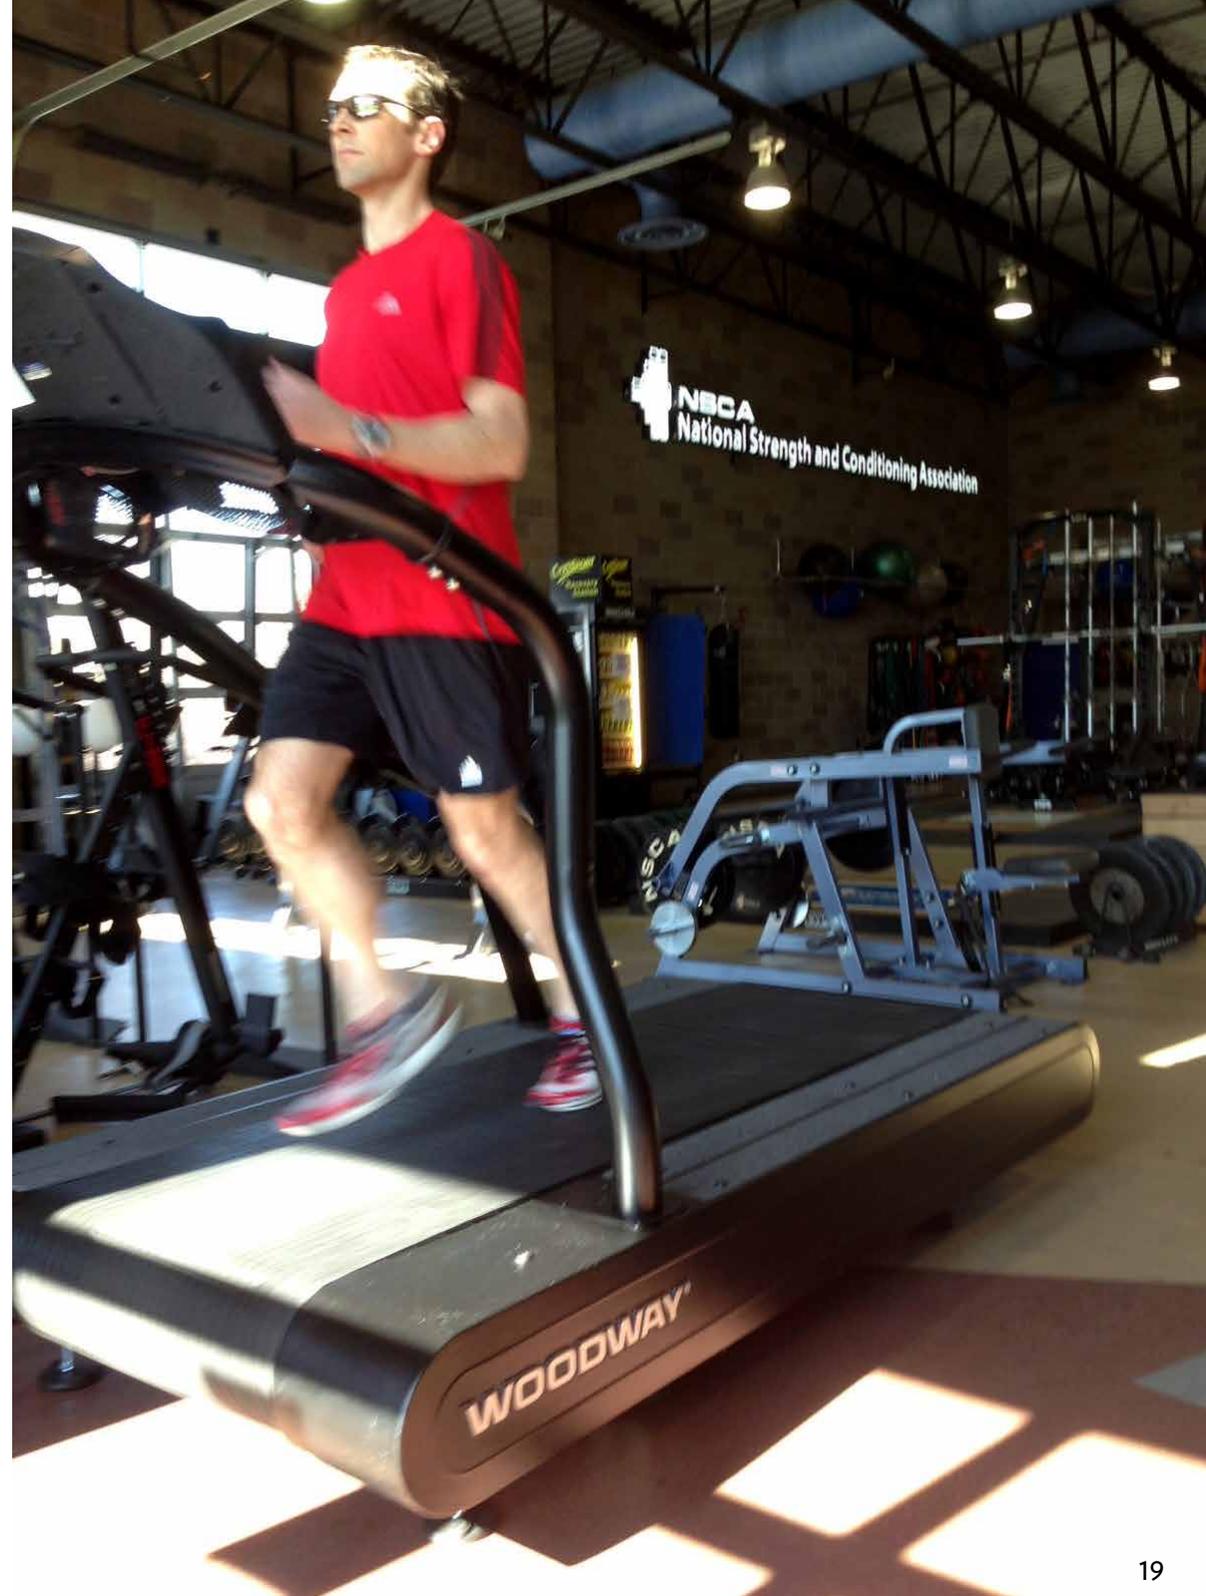

Here, at the NSCA Performance Center, we have a variety of WOODWAY models to suit our needs.

The PRO XL, FORCE, AND DESMO (4FRONT) treadmills give us several different options to suit the variety of athletes we train from tactical officers to Division 1 college athletes.

I highly recommend WOODWAY treadmills to anyone looking for an asset with training athletes.”

Scott Caulfield, CSCS, *D, RSCC
Head Strength Coach &
Performance Center Manager
National Strength and Conditioning Association

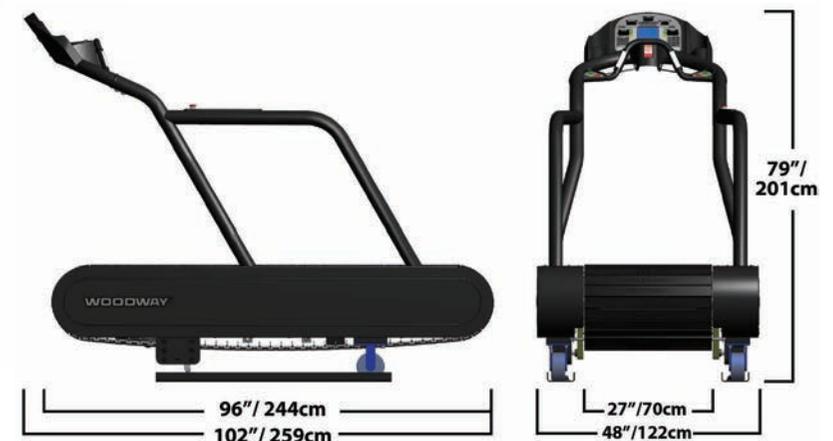

ELG

The ELG treadmill is one of *the industry's fastest treadmills*. At 25 mph, this treadmill was built for speed and over-speed progressions as well as uphill and downhill training. The ELG features a large incline range, from -5% to a max elevation of 35%. This treadmill was built with the serious athlete in mind.

SLAT BELT TECHNOLOGY - Scientifically proven to reduce harmful shock to joints, muscles, and connective tissues allowing for a smoother and more comfortable run.

BUILT LIKE A TANK - 96" in length with speeds of up to 25mph and an elevation up to 35%, the ELG is built to take on even the toughest of athletes in the most extreme conditions.

SPEED: 25 MPH INCLINE: -5% - +35%

FIT SPEED

"Equipment doesn't work. It grows.
Who has the most of it does."

CURVE

Introduced in 2009 by industry experts with over 40 years of experience, the WOODWAY CURVE treadmill was the first of its kind to provide users with a simple tool used to deliver powerful and complex results.

This original non-motorized treadmill will offer your members a one-of-a-kind workout requiring zero electricity and no motor. Don't let imitations fool you, the WOODWAY difference is what keeps members coming back.

Experience true freedom and even improve running form on the unique curved running surface that is only achieved because **you are the motor**.

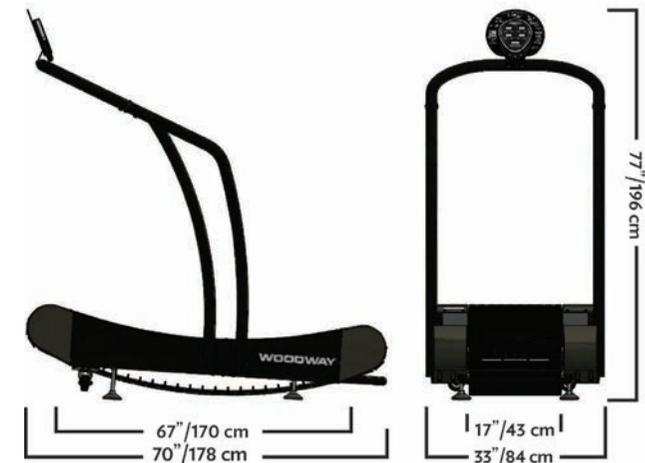

SLAT BELT TECHNOLOGY - Scientifically proven to reduce harmful shock to joints, muscles, and connective tissues allowing for a smoother and more comfortable run.

HIIT - No need to wait for the belt to slow down as the Curve makes for quick and easy on-off interval training.

IMPROVE FORM - The curved surface naturally improves posture and reinforces proper running and walking mechanics as you propel the belt.

BURN MORE - The CURVE treadmill challenges the entire body while burning up to 30% more calories than any traditional motorized treadmill.

MAX SPEED - Reach your max speed in less than 5 seconds.

NON-MOTORIZED / NO MAX SPEED

CURVE TRAINER

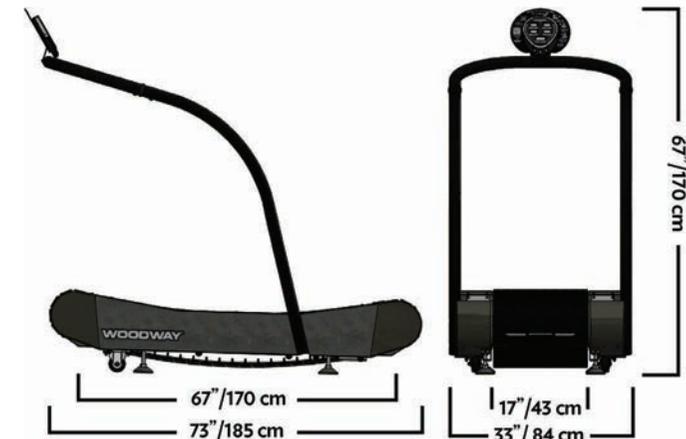

Like the CURVE treadmill, the CURVE TRAINER is also completely non-motorized. However, the CURVE TRAINER was constructed with a lower incline base designed with health club users in mind that are looking to build endurance and increase stamina in a more controlled setting. The CURVE TRAINER provides users with the ability to maintain an efficient pace, allowing for repeatability and longer duration workouts.

SLAT BELT TECHNOLOGY - Scientifically proven to reduce harmful shock to joints, muscles, and connective tissues allowing for a smoother and more comfortable run.

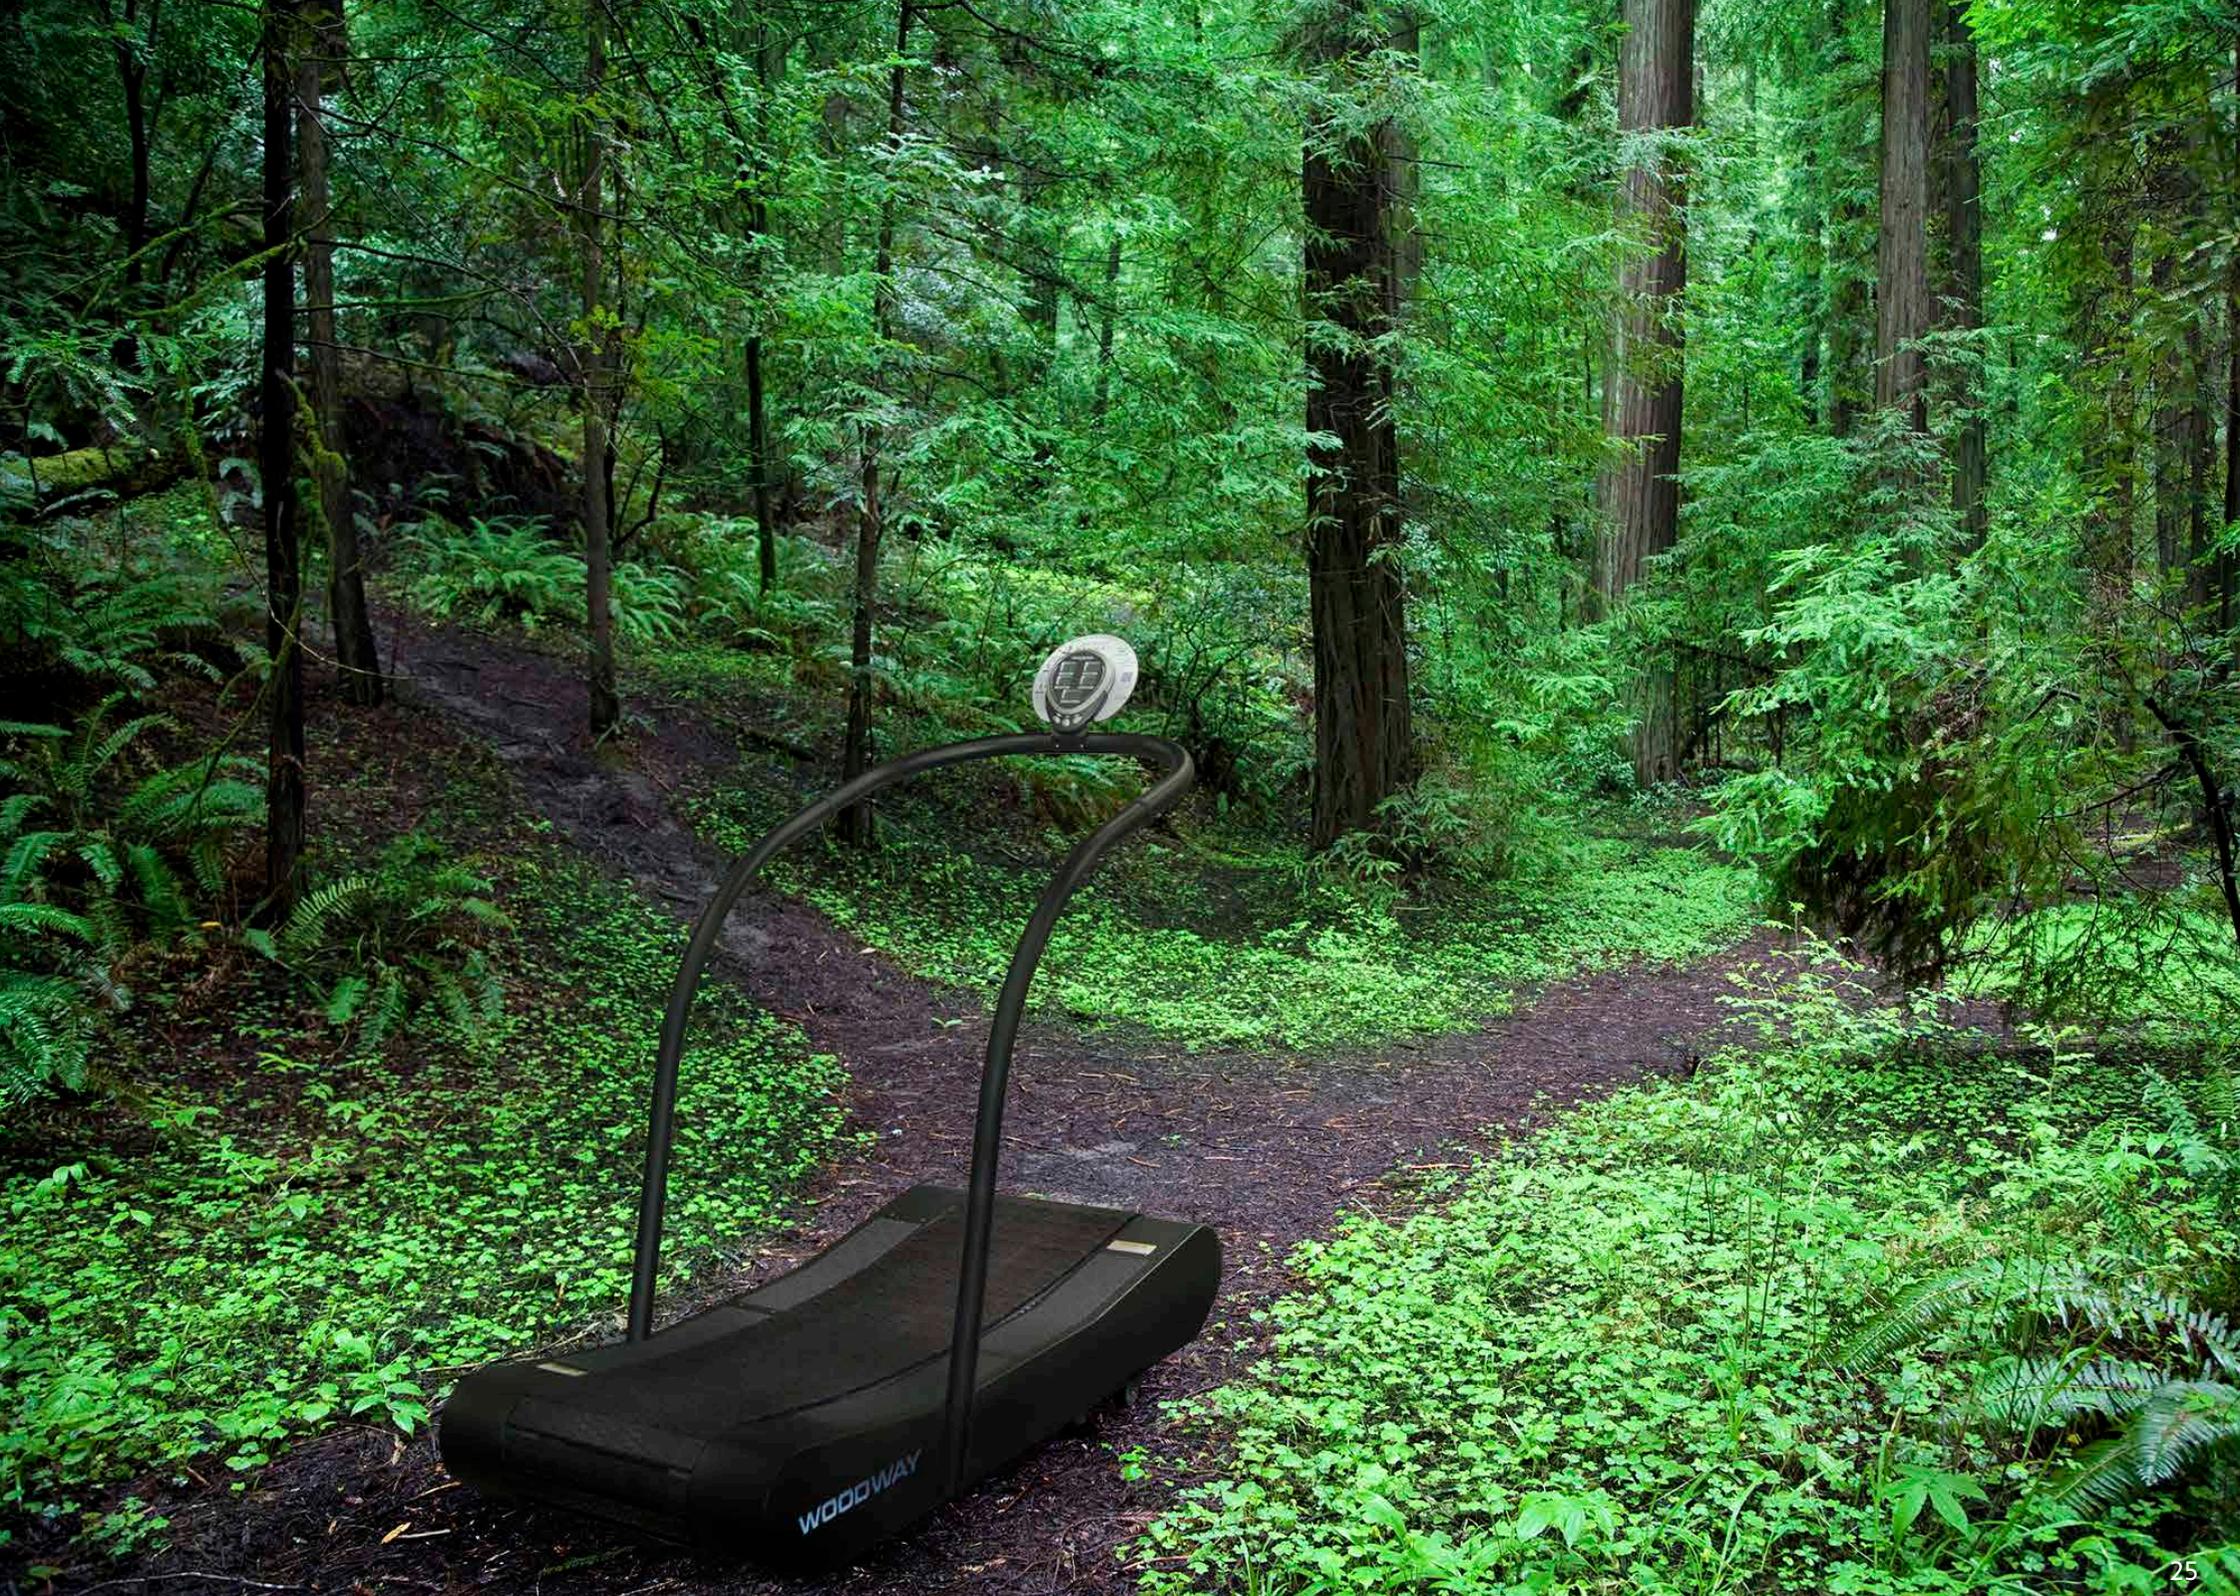

SMALL GROUP TRAINING - Easily pick up and move the CURVE TRAINER to any desired area within a small group setting for quick “stop and go” training.

ECO-FRIENDLY - The CURVE TRAINER is a completely “green” treadmill requiring zero electricity.

PERFECT PACE - Great for walkers and joggers, the CURVE TRAINER allows you to set a pace and maintain it.

NON-MOTORIZED / NO MAX SPEED

WOODWAY

CURVE XL

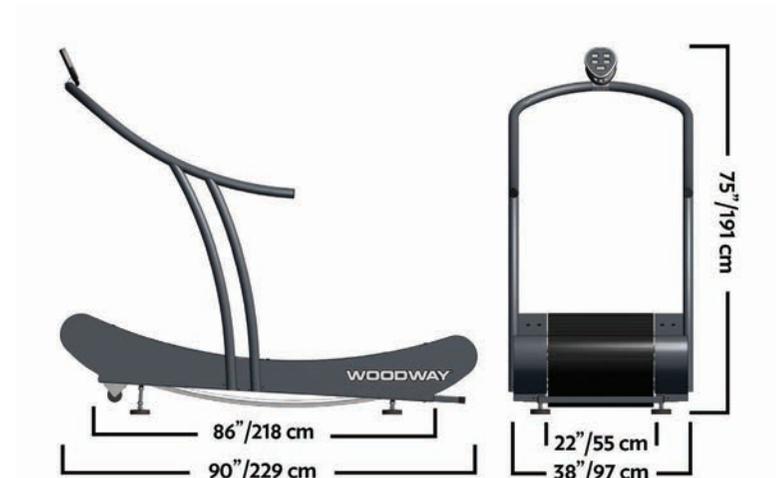

Favoured among many professional sports training rooms, the CURVE XL treadmill is like the CURVE, but built to offer a wider and longer running surface for taller and larger athletes. Never let the size of a treadmill limit your training or your gait mechanics.

SLAT BELT TECHNOLOGY - Scientifically proven to reduce harmful shock to joints, muscles, and connective tissues allowing for a smoother and more comfortable run.

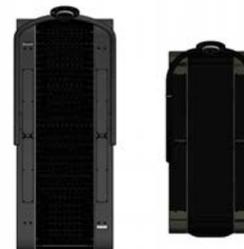

NO SIZE LIMIT - Extra-large running surface with all the same great functionality and benefits as the regular CURVE treadmill.

ECO-FRIENDLY - The CURVE XL is a completely “green” treadmill requiring zero electricity.

IMPROVE FORM - The curved surface naturally improves posture and reinforces proper running and walking mechanics as you propel the belt.

NON-MOTORIZED / NO MAX SPEED

Curve XL Curve

DIMENSIONS	CURVE	CURVE XL
Width	33" (84 cm)	38" (97 cm)
Length	70" (178 cm)	90" (229 cm)
Height	77" (196 cm)	75" (191 cm)
Running Surface	17" W x 67" L (43 x 170 cm)	22" W x 86" L (56 x 218 cm)

FORCE

The FORCE treadmill is a non-motorized, stationary, sport loading platform designed specifically for speed, acceleration, and athletic performance training.

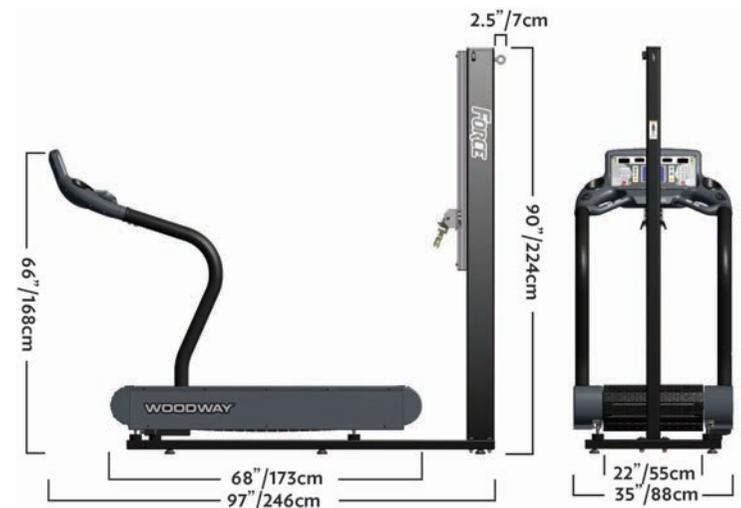

With an electro-magnetic braking system built in, this performance treadmill is designed to increase resistance and push athletes to their limits safely and in the proper biomechanical position.

Equipped with an adjustable harness and varying levels of resistance, the FORCE is a dynamic training tool for all athletes looking to improve quickness, power, and anaerobic endurance.

SLAT BELT TECHNOLOGY - Scientifically proven to reduce harmful shock to joints, muscles, and connective tissues allowing for a smoother and more comfortable run.

RESISTANCE - The self-propelled belt forces users to work harder and can add anywhere from 5-150 lbs. of resistance during a workout.

MULTI-FUNCTIONAL - The Force serves as a multi-functional workout tool that activates different muscle groups and can be used for toning, core, sled-push, sled-pull, sprints, and anaerobic endurance.

NON-MOTORIZED & LOAD RESISTANCE BRAKING SYSTEM

“

The main reason I like to use the WOODWAY FORCE is because you can use it for any fitness level - from weight loss to rehabilitation to elite athlete. That flexibility makes it really useful, plus you get the best workout at any of those levels.

”

*Paul Robbins
Metabolic Specialist*

FITBENCH

FORM

Space saving and compact, it's the workout bench solution for your group training class, home gym or anywhere you find space for fitness. Constructed with cold rolled steel with a durable composite molded top, it's built with design, function and durability in mind.

FUNCTION

Eliminate clutter with multiple storage points for weights, kettlebells and slam balls. Easily move the bench, weights and equipment out of the way all at once with the built in handle and wheels.

FITNESS

Use the attachment points to anchor your battle ropes or fitness bands. It doubles as a plyobox for stepping up and jumping onto or off of. Engage your core throughout your workout with the flat, adjustable benchtop.

NUTS & BOLTS

- L 46.5" x W 17" x H 20"
- Constructed of Cold Rolled Steel
- Adjustable Heavy Duty Top
- 165 lbs. + 285 lbs. Weight Package
- Wheels & Handle for Movability
- Anchor Points for Bands & Ropes
- Storage for Slam Ball (25 lb.)
- Space for 2 Kettlebells (20 & 30 lbs.)
- Holds 6 Sets of Dumbbells (5, 10, 15, 20, 25, 30 lbs.)
- Doubles as a Plyobox
- Additional Storage for Personal Items

FITBENCH Patent Pending

wattbike

True Training Tool

The Wattbike provides reliable, repeatable, measurable data with scientific accuracy. Improve power, speed and performance using Wattbike's accurate data to analyse over 40 parameters about your riding.

Leave no margin for error when it comes to measuring your performance, as each Wattbike has been engineered to deliver accuracy within 2% across the full range of watts.

Real Ride Feel

The Wattbikes unique resistance system and free hub deliver the most realistic feel of any indoor bike.

Setup Adjustability

It is vital to get in to the right position when on your bike and the Wattbike is fully adjustable so you can recreate your perfect setup with ease.

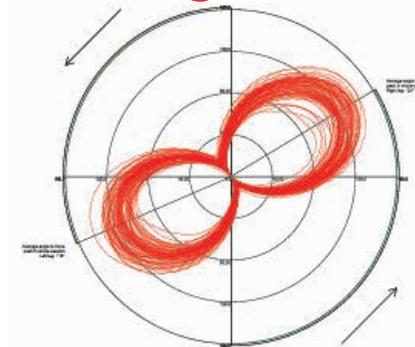

The Polar View

The Wattbike Polar View is a unique analysis tool which can help you master the perfect pedalling technique.

Simply put, the Polar View is a graphical representation of your pedalling technique. It shows the balance between your left and right leg, the force you apply to the pedals and where exactly you apply this force within the pedal stroke.

Beginner

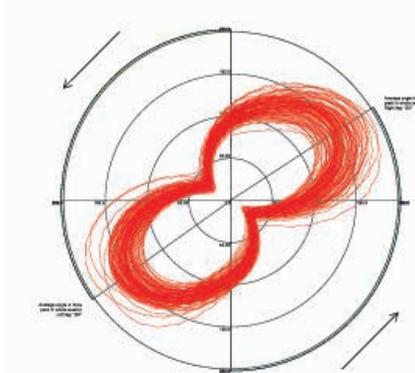

The cyclist is only using the muscles on the front of the thigh and is “stomping” on the pedals. This loses all momentum between the left and right leg and wastes energy.

TIP

Try adjusting your cadence (RPM). Aim to pedal between 85 and 100 RPM.

Intermediate

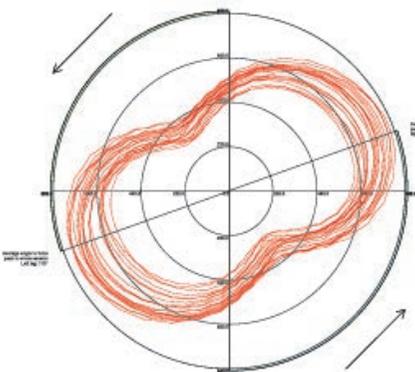

The cyclist retains some momentum and is starting to use the muscles on the back of the thigh and calf.

TIP

Imagine scraping mud off the sole of your shoe to engage the muscles on the back of the leg.

Elite Cyclist

The cyclist has an excellent technique with very little loss of momentum between left and right leg, a good even distribution of power throughout the pedal stroke and excellent balance between left and right leg.

TRAIN

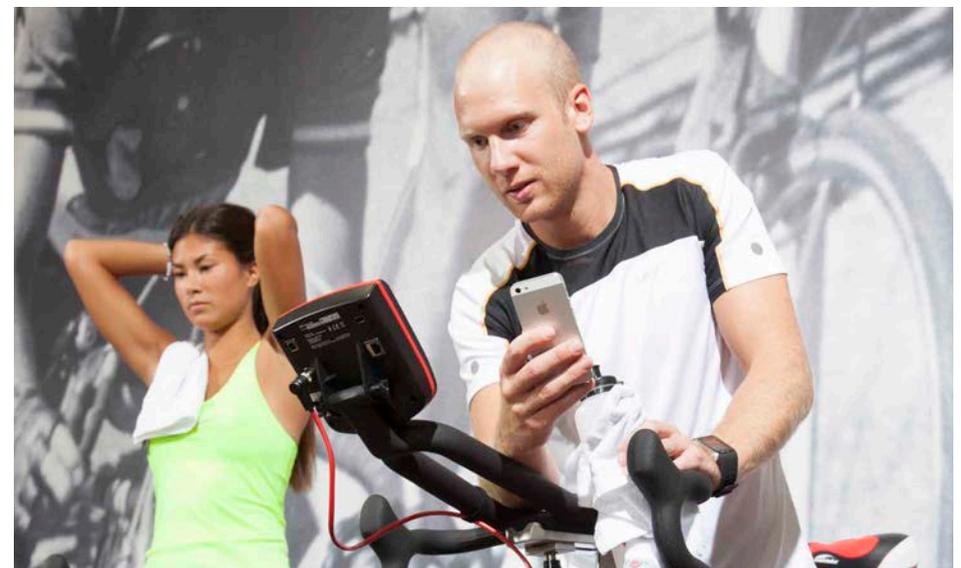

Chosen by the world's best athletes, the Wattbike is your ultimate training partner. Combining accurate performance data with the most realistic ride feel on any indoor bike and an innovative app for the complete training experience.

wattbike.com

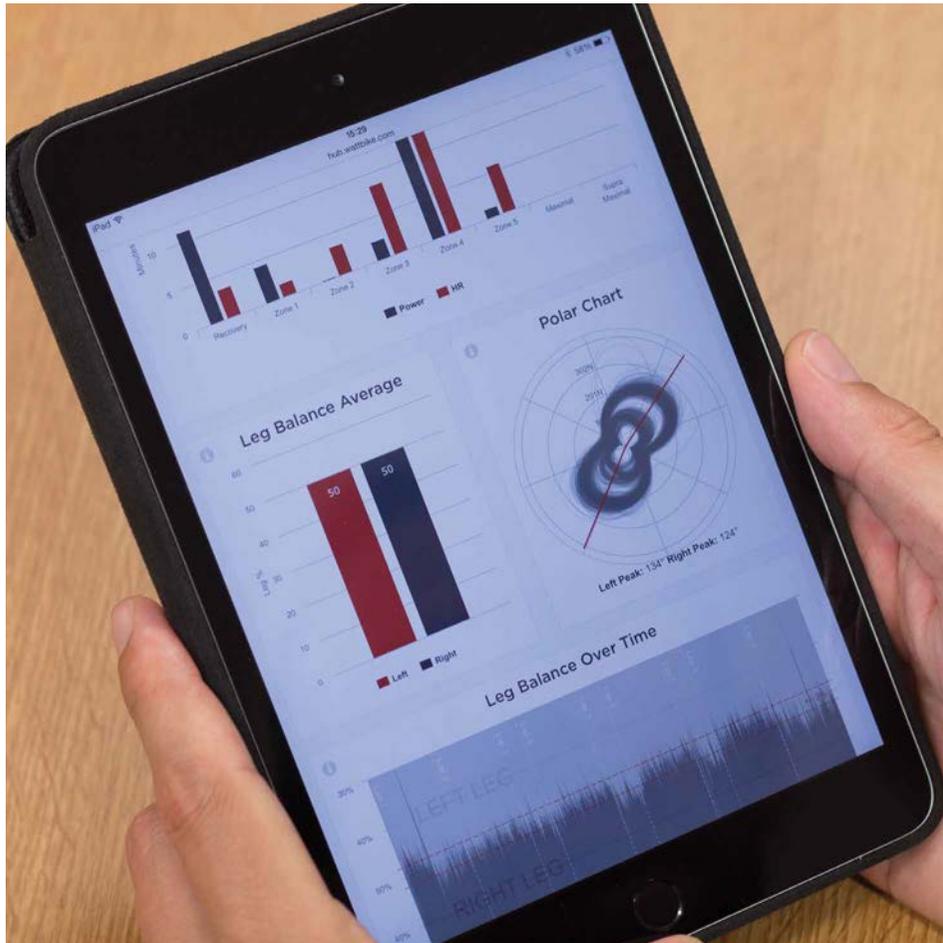

UPLOAD

The Wattbike Hub lets you test, train and analyse your performance all from one simple digital platform. It's like having your own personal coach in your pocket.

ANALYSE

Based on your Maximum Minute Power (MMP) or Functional Threshold Power (FTP) scores, the Wattbike Hub calculates your personalised training zones and implements them into every session ensuring you are always training at precisely the right intensity to achieve your goals.

Download the
Wattbike Hub.

SHARE

Instantly share workouts on social media or via email and follow your friends and other athletes on the Wattbike Hub.

BLADE

The BLADE skating treadmill is ideal for skaters of all levels, from beginners just learning to skate, to professional athletes seeking to improve form, efficiency, and endurance. It is the ultimate tool for developing skating technique and improving overall skating abilities.

The key to the BLADE is providing a controlled atmosphere. With a 360-degree view, coaches and trainers can easily see the skater from all angles to assess what areas need improvement. Having a surface area of over 50 square feet (over five square meters), the BLADE gives skaters plenty of room to train. The BLADE also includes a supportive handrail, and a gantry system, for optimal safety and support with the benefit of allowing up to three skaters to be harnessed and trained in rotation onto the skating surface.

SPEED: 16 MPH INCLINE: 35%

“ The BLADE treadmill is unique in its multi-purpose applications for our athletes. In this controlled environment we are now able to engage multiple senses at once with face to face feedback, verbal cues and most importantly, real-time visual feedback for our players with the mirrors and multi-angle camera views. ”
